The venue: Sofia Hotel Balkan, a Luxury Collection Hotel

Sofia Hotel Balkan was built in 1956 as part of a new architectural trend: a fusion of classical design and lavish décor. The iconic building is part of the President's Palace complex and beneath its foundations lies a historical Roman fortress, the remains of which can be seen all around the hotel.

The oldest Orthodox church in Eastern Europe the Saint George Rotunda is situated in the yard of the venue. It is thought that the church was built in the 6th century, during the reign of Constantine the Great. There is hardly another city in all of Europe that has so many noteworthy Christian, Islamic, and Jewish monuments so close together in the area. The subway to the airport and the favourite shopping and entertainment area Vitosha street are 100 m from the hotel.

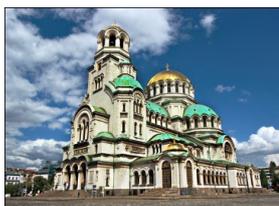

The participants can book rooms on preferential rates using the following link:
